Whereas More than 100 million Americans live with chronic pain as a result of serious illnesses and injuries; and

Whereas One in four adult and among minorities, twice that number, suffer from chronic pain in Massachusetts; and

Whereas Pain negatively impacts almost every aspect of a person’s life including the ability to work, sleep and engage in social activities as well as adversely impacts pain suffers’ families and caregivers; and

Whereas The Institute of Medicine estimates that pain costs the United States public economy $560 to $630 billion per year in medical expenses, lost wages, lost productivity and other associated costs; and
